

MACHINISTS working on Gemini spacecraft at Merritt Island, Fla., west of Cape Kennedy, joined a company-wide strike against the McDonnell Aircraft Corp. The dispute threatens to delay next month's twin launchings of four astronauts. (AP Wirephoto)

Strikers Replaced At Cape Kennedy

CAPE KENNEDY (UPI)—Project Gemini officials temporarily replaced striking spacecraft machinists with technicians from St. Louis today to keep preparations moving toward next month's

twin launchings of four astronauts. A space agency spokesman said 43 supervisory personnel from McDonnell Aircraft Corp. replaced the strike-idled Gemini plant in St. Louis were filling key gaps left by the walkout of most of 215 McDonnell machinists. Gemini engineers were proceeding with key testing on the Gemini 7 spacecraft and

hoped to maintain the schedule calling for the launch of Astronauts Frank Borman and James Lovell Dec. 4. Gemini 6 Pilots Walter Schirra and Thomas Stafford follow in pursuit nine days later. Project officials managed to maintain the fast-paced schedule Friday by working around the missing capsule technicians.

But today's check-out program, which includes a key test of Gemini 7's vital fuel cell electrical system, required the use of technicians on Launch Complex 19. "They're going to continue out there," said the agency spokesman. He said the new group of St. Louis-based technicians would allow Gemini work to continue for at least several more days.

Senior Spends Nights In Jail

ST. JOSEPH (UPI)—A high school football star who eloped with his 16-year-old girl friend today faced 30 days of commuting to school from jail. Municipal Court Judge Maurice A. Weber arranged the sentence Friday to John Hedstrom, 18, could complete his studies as a senior at St. Joseph High School.

He told Hedstrom he could leave his cell only to go to school and back and must spend his nights and weekends behind bars until the 30-day sentence is completed.

Hedstrom pleaded guilty to contributing to the delinquency of his minor girl friend, Rebecca Ann Green with whom he eloped Oct. 30 after driving his car into the St. Joseph River to fool authorities into believing he and the girl drowned.

Hedstrom and Miss Green disappeared the night of Oct. 30. They were picked up by their fathers and local police Monday at an apartment in St. Louis, Mo., where they were living as man and wife.

Wayne Lee Rieman, 22, who pleaded guilty to the same charge for driving the couple to St. Louis, also was given a 30-day sentence and allowed to commute from jail to work and back.

Phone Talkers Break Record

KALAMAZOO (UPI)—The sound of music and the tinkle of wedding bells.

These are just a couple of by-products that have been coming out of the telephone at Burham Hall and Bigelow Hall at Western Michigan University.

A phone talkathon—featuring an uninterrupted telephone conversation between a Burnham Hall coeds and male students in Bigelow Hall working in relays—Friday afternoon broke the existing WMU record of 401 hours set in 1961.

The yacking is scheduled to continue until next Tuesday afternoon at 4:30 when at least 500 hours will have been logged or until Wednesday noon with 522 hours recorded, for what is presumed to be better than the existing world record, whatever it is.

Today's Chuckle

"Help your wife," advises a home economics editor. "When she washes the dishes, wash the dishes with her; when she mops up the floor, mop up the floor with her."

South Viet Nam Victory Called 'Unprecedented'

Boxcar Battler Faces Charge Of Manslaughter

GRAND RAPIDS (UPI)—Audley Lee Williams, 42, of Greenwood, Ark., pleaded guilty in circuit court Friday to manslaughter charges in the death of a man thrown from a moving boxcar here May 25, 1964.

The victim was Walter C. Clasen Jr., 49, Detroit. Williams was arrested in St. Joseph County Sept. 9 on burglary charges and confessed he tossed Clasen from the moving train when the two had a fight in the box car as the train moved through Grand Rapids.

Campaign Kills At Least 1770 Enemy Troops

SAIGON (UPI)—Vietnamese paratroopers supported by U.S. and government planes killed "hundreds" of Communist troops today in heavy fighting along the Cambodian border, a U.S. military spokesman reported.

A heavy engagement between South Vietnamese troops broke out in the Ia Drang Valley below Chu Pont Mountain when the paratroopers were rushed in to aid U.S. cavalrymen who already had scored an "unprecedented victory" in killing 1,770 Reds.

U.S. Strategic B52 eight-engine bombers from Guam inflicted other casualties on the Communists while U.S. and Vietnamese fighter-bombers pounded Communist strongholds in the jungle area 210 miles north of Saigon with flaming napalm, bombs and rockets.

"I consider this an unprecedented victory," said Gen. William C. Westmoreland, commander of all U.S. forces in Viet Nam. "American casualties are heavier than any previous campaign, but small by comparison with the enemy."

A military spokesman said two drives were being made along the Cambodian border, 210 miles north of Saigon. "The Vietnamese are driving from the North along the border," he said. "The U.S. is sweeping, moving west."

The spokesman said two more B52 raids were hurled against the suspected North Vietnamese base, the 9th and 10th raids by the super bombers since Monday, when commanders began canceling other raids and diverting all B52s into the Plei Me area.

Law And Order Sukarno's Aim For Indonesia

JAKARTA (UPI)—President Sukarno summoned more than 300 of Indonesia's top military leaders to his palace today to give them instructions on the restoration of law and order following the abortive Communist-backed coup of Oct. 1.

Sukarno took the unprecedented step of inviting both domestic and foreign newsmen to hear what was expected to be a major policy pronouncement.

Interest in the statement heightened Friday night when Deputy House Speaker Mohammad Sachu announced that the abolition of the Indonesian Communist Party was only a matter of time.

The Party, dominated by sympathizers of Red China, has been widely blamed for the Oct. 1 power grab. In Bandung, the army commander of West Java announced that the Communist Party in his area has in effect abolished itself and legally ceased to exist.

The official news agency Antara reported that four Communist groups around Klanten, Central Java — once a Communist stronghold — had dissolved. Antara said the members promised to destroy any remnants of the anti-government conspiracy.

In a meeting with his armed services chiefs Thursday, Sukarno had pledged a political solution to the crisis which followed the abortive coup.

Merchant Bumps Metermaid, Faces Assault Charge

BENTON HARBOR (UPI)—Norbert Bublick, a local merchant, faced assault and battery charges today for bumping a metermaid who spoiled his parking ticket-dodging scheme. Police said Bublick kept an eye on his car every day. When a meter maid showed up he would rush out, drive away and park elsewhere before she could write a ticket.

Norma Divanni, a metermaid, spoiled Bublick's game Friday by standing in front of his car as she wrote the ticket. Bublick jumped into the car, glared at the girl, and started forward, nudging her out of the way.

She was not hurt but police arrested Bublick. He posted \$50 bond pending a court hearing.

Wide Area Has Heavy Snowfall

By United Press International
The north central section of the nation was covered by thick layers of snow today as temperatures in the area dropped into the teens.

A band of snow stretched from North Dakota to the Upper Peninsula of Michigan and as far as sections of northern New England.

International Falls, Minn., reported a foot of snow. Three inches of new snow fell at Duluth, Minn., in a six-hour period ending this morning while six inches of snow was reported in northwest Wisconsin and nearly one foot was on the ground in Upper Michigan.

Traffic-hampering fog shrouded a wide area from Louisiana and southern Mississippi to northeast Texas with visibility zero in many areas. Showers pelted the northern Pacific Coast with more than half an inch falling on Oregon in a six-hour period.

Elsewhere the nation enjoyed clear, dry weather with temperatures on the seasonably mild side.

LORD SNOWDON stretches his neck for a look at the top of New York's Empire State Building as he and his wife, Britain's Princess Margaret, visit the observation floor for a view of America's largest city. In the background is the Chrysler Building, with the Queensboro Bridge and Long Island beyond. (AP Wirephoto)

Violence Barred At Construction Site In Lansing

LANSING (UPI)—A Circuit Court order was issued Friday night barring union workers from interfering with non-union construction workers here.

The restraining order was issued after a lengthy court session, the aftermath of an outbreak of violence by building tradesmen at a construction project being built by non-union workers Friday morning.

Ingham County Circuit Judge Sam Street Hughes issued the order on the request of the Warner - Long Development Corp. and J.P. Grammatical Construction Co.

The order was issued against the Michigan Building and Construction Trades Council and the Lansing Building and Construction Trades Council and 19 affiliated locals and their agents.

It specifically bars them from acting with violence, coercion, intimidation or "acts of physical strength and mass picketing in preventing contractors, owners and employees from entering and leaving their construction projects and from working for all members of the Contractors and Suppliers Association of Central Michigan."

About \$10,000 damage was done Friday by nearly 500 building tradesmen at a 150-unit apartment being constructed by non-union workers.

The attack on the building took place shortly before dawn and before adequate police protection could be provided. Rocks and bricks were thrown through 57 double-glazed windows, two trailers were tipped over and a shed set on fire, said George Long, co-owner of the Warner-Long Realty Co., building the apartment.

Joe Davis, executive secretary of the Contractors and Suppliers Association, said, "The wives and children" of the non-union laborers, contractors, and employers had been threatened. He said they were placed in seclusion. "All we want is the right to work," he said.

Mayor Max Muringham said the city planned to uphold law and order at the construction site. He said the demonstrators violated a state law prohibiting mass picketing.

Muringham made his statement following a meeting with representatives of the Michigan Building and Construction Trades Council, police and city officials, and representatives of the non-union workers and the Michigan Labor Mediation Service.

Stan Arnold, secretary treasurer of the Michigan building council, said he would inform his members of the law. "We certainly do not condone any violence," he said.

Members of the Lansing Building and Construction Trades Council have been picketing several construction projects being built by non-union workers for the past several weeks.

Angered By Scuffle
The demonstrators apparently were angered Friday over a scuffle they had with police and non-union workers the preceding day.

About 500 demonstrators massed at the apartment building shortly after 5 a.m., equipped with walkie-talkies, Muringham said.

The outbreak of destruction followed shortly afterward with about 30 policemen helpless to do anything because of their small number. It ended before police reinforcements could be rushed to the scene. No arrests were made and there were no injuries reported.

None of the demonstrators entered the apartment project, but stood on the sidewalk three and four men deep, throwing the bricks and stones.

Muringham said all leaves and days off for policemen have been cancelled indefinitely until the labor situation is settled. He said the governor was informed of the situation in case of a need for help from the National Guard.

Pastor Wounded By Nightriders Quits Mississippi

JACKSON, Miss. (UPI)—A minister who was seriously wounded from ambush by night riders three months ago has left Mississippi rather than "stay in hiding" because of alleged new threats on his life. Kenneth Dean, executive director of the Mississippi Human Relations Council MCHR, announced Friday that his close friend, the Rev. Donald A. Thompson, 59, left Jackson at midnight Thursday for New York.

Thompson, a 300-pound Unitarian minister and civil rights advocate, resigned as board member and secretary-treasurer of the MCHR and Dean said he also had resigned his local pastorate.

The white minister, who had admitted Negroes to his church in the Jackson suburbs, was felled by a shotgun blast in the back Aug. 22 as he returned to his apartment after driving a Negro parishioner home.

He told police he was hit by the second shot fired from a green car carrying three white men as he ran for the rear entrance to the multi-story apartment building where he and his wife lived near downtown Jackson. No arrests had been made in the case.

Quell Rhodesia Rebels, Britain Advised By UN

UNITED NATIONS (UPI)—The Security Council votes today (10:30 a.m. EST) on a resolution calling on Britain to "quell" the secessionist regime of Rhodesia Premier Ian Smith.

Passage of the resolution seemed assured. Only the Soviet Union and France were expected not to vote for it, and informed sources said they had indicated they would abstain rather than cast a veto.

The resolution was introduced in the Security Council Friday by Uruguay and Bolivia. It came after four days of back room consultations among Council members. U.S. Ambassador Arthur J. Goldberg, who rose from a sick bed to take part, was understood to have played a key role.

The Council had been stymied by African demands to pass a stern resolution calling on Britain to use military force if necessary to put down the rebellion.

Britain warned privately it would veto such a resolution. The back room conversations were designed to bridge the gap between these two positions.

As produced by the two Latin American delegations Friday, the resolution eschews any mention of the use of military force against Rhodesia.

Moscow Peace Visit Futile

BUCHAREST, Romania (UPI)—A party of U.S. Senators headed by majority leader Mike Mansfield, D-Mont., was flying here today from Moscow, where their efforts to arrange Viet Nam settlement proved to be in vain.

The five senators spent four days in the Soviet capital on a tour of Europe apparently undertaken with President Johnson's blessing. Reliable sources said they were seeking a Vietnamese "peace with honor."

A meeting with Premier Alexei Kosygin Friday night climaxed their Moscow stay.

Kosygin talked with the senators for 2 hours and 20 minutes. Afterwards, Mansfield told reporters they barely touched on Viet Nam. He said the talks contained "no surprises."

Soviet sources said Kosygin and Foreign Minister Andrei Gromyko received the lawmakers more out of courtesy than for any reasons of diplomacy.

Copper Price Rise Canceled

WASHINGTON (UPI)—The administration planned to forge ahead today with its program to relieve the strain on the U.S. copper market, despite a decision by major producers to rescind price increases.

An announcement Friday by two leading producers to revoke a two-cent per pound increase that already had gone into effect was seen as a response to the announcement Thursday that the government was releasing 200,000 tons of stockpiled copper to the open market.

The price rollbacks, by the Anaconda Sales Co. and the Phelps Dodge Corp., took by surprise most industry observers, who had been expecting prices to remain stable. But government sources said the copper price reduction would have no effect on the release of stockpiled copper. This was primarily because of the shortage of copper on the U.S. market.

President Johnson was reported to be "delighted" at the industry action. White House aide Jack J. Valenti told newsmen at Johnson's Texas ranch that "the President is always delighted when he sees exhibitions of statesmanship and responsibility on the part of American industry."

Communists Test 1950 Security Act

WASHINGTON (UPI)—Attorneys moved today toward an appeal of the U.S. Communist Party's second conviction under the 1950 Internal Security Act, providing the means for a new test of the controversial law's constitutionality.

A U.S. district court jury Friday night found the party guilty of failing to register as an agent of the Soviet Union. Judge William B. Jones imposed a \$20,000 fine, the maximum penalty under the act.

The verdict, coming after deliberation of 2 hours and 35

minutes, was the second time the party has been found guilty on the charges. In 1962 a jury delivered a guilty verdict after only 35 minutes of deliberation, but the conviction was reversed on appeal.

Defense attorneys said they would appeal to the U.S. Circuit Court of Appeals within the next 10 days. The move would provide a vehicle for a new test of the Security Act, which has already been struck down in part by the U.S. Supreme Court.

Some government lawyers said privately they expected the

new conviction would be reversed on appeal.

Communist leader Gus Hall, who was present when the verdict was returned, predicted the appeal would be successful. He said he was not surprised at the conviction, terming it part of the "longest and weirdest political persecution in our history."

The jury of eight men and four women, eleven of whom were Negroes, received the case late Friday afternoon. The final verdict came about six hours later following a recess for dinner.

Record Numbers Flocked To U.P. For Deer Hunt

The 16-day 1965 deer season in the Upper Peninsula is only a week old, but it has already set an all-time record for number of hunters afield.

An estimated 125,000 to 130,000 hunters invaded Upper Peninsula forests for opening day last Saturday — far above the normal contingent of about 100,000.

The Michigan Department of Conservation said it was the largest concentration of hunters ever gathered in the U. P. The increase was attributed to large numbers of downstate and out-of-state hunters who poured into the U. P. before the season opening.

Bridge Count Jumps

Mackinac Bridge officers counted 33,658 hunter vehicles coming into the Upper Peninsula, almost 10,000 more than the 23,840 recorded last year. Using an average of about 2.5 hunters per vehicle 84,145 hunters came via the bridge. More

Buck Strikes U.P. Huntsman

A Detroit hunting deer off the Triple-A Road in northern Marquette County didn't get his buck, but the buck almost got him.

This is the strange account related to conservation officers by James Gordert, the hunter.

Gordert said he was standing in a bulldozed cut on the side of a hill at 10:30 one morning this week when he sighted a doe. He had a doe permit and had just pulled up his rifle to fire when he heard a sharp noise behind him and instinctively ducked down.

It's a good thing he did, for the noise was made by a buck that bounded off the bank above the bulldozed cut and struck Gordert in the head with one of its hooves.

Gordert said he caught a glimpse of the buck before the force of the blow knocked him 30 feet down the hill.

His head must have struck a rock while he was rolling down the hill, Gordert said, explaining that he was briefly knocked unconscious. He showed officers a bump on his head as evidence of his claim.

The hunter struggled back up the hill to where he had dropped his rifle when the deer struck him, and there he also found his leather hunting cap — with a sharp slash in it that Gordert told officers was made by the buck's hoof.

SOLUTION TO THE mystery in "Murder Takes the Veil" is discovered by (from left) Lani Norton as Helen and Sue Gannon in the role of Trillium in the drama to be presented by students of Holy Name High School. The play will be presented in the school multi-purpose room tonight, Sunday and Monday nights at 8 p.m. with Brother Christopher Brian directing. (Daily Press Photo)

Board Questions Plan For Marina

Until further information is forthcoming from R. F. Brown of Lansing on his proposal to develop a marina at the former Hansen & Jensen fish house site across from the Delta County jail, the Escanaba Planning Commission is recommending against such a plan.

Brown advised the city that he plans to develop and operate a "modern marina" for small craft at the location.

The Commission, meeting at the City Hall Thursday afternoon, recommended to the Council that Brown's request be refused.

The Commission indicated that it feels the area Brown has under consideration is unsuited to a marina and that he should provide the Commission with more information about his plans. In effect the Commission left the door open for Brown to submit additional facts supporting his plan for the marina.

Brown heads the Brown Sea Food Co. which purchased the former Hansen & Jensen fish house property from Roy A. Jensen of Escanaba about six years ago. Brown operated the business for a short time and has had it for sale.

The shore in that area is built-up or man-made land controlled by the State of Michigan, and Brown seeks city approval of his application to the state to lease this bottomland. He also wants to lease lands extending northward to the old C&NW Railway dock.

Several local persons, owners of bathhouses on the shore in which Brown is interested, and others, attended the Commission meeting. There are four bathhouses in the area Brown seeks to lease.

Located at the foot of N. 3rd St. and once near "heart" of Escanaba's business section, the area was once a slough and small boats passed beneath the street, which was supported by a wooden trestle over the water. Through a century of development the public waters were filled in and became bottomland under the control of the state.

The administration of the state bottomland program is by the Department of Conservation, which has sought the removal of the bathhouses in the location for some time. City Manager George Harvey said that this subject will be discussed with Department representatives at a meeting in Escanaba in early December. The Commission action on

Winter Trout Waters Listed

Seventeen waters in the Upper Peninsula will be open next month for the first time to take rainbow and brown trout by hook and line during a special winter season.

In addition, fishing for rainbow and brown trout during December, January and February will be permitted again on 40 other waters.

Open during the 1965-66 season for the first time are:

Delta County — Waters of Big and Little Bays de Noc of Lake Michigan; Gogebic — Finger, Foxpaw and Ormes Lakes; Luce—Bullhead, Camp 8, Frank, Long and Tank Lakes and Lake Superior; Mackinac — Fiborn Pond and Lake Michigan; Ontonagon — Courtney and Tanlund Lakes; Schoolcraft — Bear and Section 7 Lakes.

Waters which will be open again this year are:

Alger—East and West Bays at Grand Marais and Deer Lake; Baraga—Lost (Laws) Lake; Chippewa — Highbanks Lake and Michigan Northern power canal; Delta—Gooseneck Lake; Dickinson—Bass, Hamilton, Louise and Mary Lakes; Houghton—Crystal and Emily Lakes; Iron—Brule, Chicago, Ellen, Golden, Hagerman, Long, Ottawa and Sunset Lakes; Luce—Bass, Bel land Perch Lakes; Marquette—Lake Angeline and Brocky, Johnson, Nash, Silver, Twin and Witch Lakes; Schoolcraft — Ashford, Clear, Dodge and Island Lakes and Lake Michigan.

THUNDER IN DIXIE

Boy Runs Into Street; Injured By Automobile

Wayne Bougie, 15, of 1107 10th Ave. S., is reported to be in "fairly good" condition today at St. Francis Hospital where he is receiving treatment for injuries suffered in a traffic accident Friday evening.

Three of the conservation department's four districts in the U. P. reported more hunters this year than last. The Newberry district, Chippewa, Mackinac, Schoolcraft and Luce Counties and the east half of Alger) reported the heaviest increase. The Escanaba district (Delta, Marquette, west half of Alger) generally fielded more hunters than last year. The Crystal Falls district (Iron, Dickinson, Menominee) reported heavier shooting pressure than ever before except in southern Menominee County. Only the Baraga district (Baraga, Houghton, Keweenaw, Ontonagon and Gogebic) reported a drop in hunter numbers.

Statewide, the conservation department predicted 575,000 hunters would tramp through the woods this deer season — also an all-time record.

Indications of the heavy hunting pressure in the Upper Peninsula were found in several statistics, including the higher number of arrests for game law violations and the record number of long distance phone calls placed from the U.P. during the deer season.

The boy suffered a fractured right leg and multiple bruises when he ran into the street and was struck by a car driven by Cleve J. Moore, 57, of 1221 Stephenson Ave.

Police said that Moore was driving south on S. 23rd St. at 5th Ave. S. at 6:48 p.m. when the accident occurred.

They reported that the boy, wearing dark green jacket and trousers, ran from the east curb in front of a car making a left turn and into the path of the car driven by Moore, who was unable to avoid the accident.

Officers making the report noted the need for better lighting and more cross-walks in the area.

Use Rare Metal

Tone Selectors "Sort Out"

Sounds in New Hearing Aid

Tiny Tone Selectors using the rare precious metal TANTALUM have been developed for a remarkable new hearing aid which can be custom fitted to the individual hearing loss. They enable the aid to "sort out" sounds, emphasizing only those the person does not hear, leaving others at normal level. Aid can be re-adjusted to changing hearing loss.

The full story of this breakthrough in hearing aid design is in a new FREE BOOKLET of vital interest to anyone concerned with hearing. Come in or write for your copy today—no obligation.

Wisconsin Has Spurred Forest Growth Greatly

MERRILL, Wis.—The dramatic resurgence of Wisconsin's forests since World War II is sometimes overlooked as more glamorous facets of resource development capture public interest.

In 1946, the first year production figures were compiled by the Lake States Forest Experiment Station, Wisconsin's forest lands produced 428,000 cords of pulpwood. In 1963—1,302,000 cords—top rank, for the first time, in the Lake States. Last year the cut was 1,244,000 cords.

Equally dramatic is the reforestation job accomplished by private landowners, industry, and public agencies. In 15 years, the 900,000 acres of commercial forest plantations now growing in Wisconsin should produce approximately 414,000 cords of wood per year, predominantly pine, an amount equal to the present consumption of pine by Wisconsin paper mills, according to a study made recently by Trees for Tomorrow, Inc.

Projections indicate that seven times the wood available from the plantations in the 1960's will be produced on these man-made forests in the decade beginning with the year 2000.

These projections are based on assumptions that forest management such as periodic thinning, harvesting, etc., will be practiced, that growth rate will be one cord per acre per year for all species, that thinning harvests will yield 8 cords per acre at age 30, 10 cords per acre at age 40 and at each 10 year period through the 2000-2009 decade.

Becvar Joins Local Company

Appointment of Jerrold Becvar as assistant general manager at Northern Motor Rebuilders, of Escanaba, has been announced by Jack Burroughs, general manager.

Becvar will work directly under Burroughs in management of the plant.

He will make his home with his wife and four children at 1720 Dakota Ave., Gladstone.

Fresh Snows Greet Hunters

Fresh snow greeted deer hunters throughout the Upper Peninsula today as the 16-day season entered its second weekend.

From two to six inches of new snow fell across the U. P., bringing snow depths as great as 16 inches in the west end and 15 inches in part of Marquette County.

The new snow blocked many side roads and clung to trees, making it somewhat uncomfortable for hunting.

Otherwise, however, hunting conditions were generally good. Hunter numbers were about normal for this time in the season. Conservation officials said the deer kill was also about normal.

Up to 7 a.m. today, about 26,000 hunter vehicles had left the U. P. across the Mackinac Bridge. More than 33,000 hunters had come into the U. P. via the bridge prior to the start of the season last Saturday.

Hunters had transported 6,738 deer and 64 bear across the Mackinac Bridge compared with 6,727 deer and 79 bear during the corresponding period last year.

Water Buffalo Tramples Film Actor O'Brian

MANILA (UPI) — Hollywood actor Hugh O'Brian was trampled on and knocked unconscious by a water buffalo today while shooting a scene for the film "Ambush Bay" southeast of Manila.

The 38-year-old O'Brian was rushed by ambulance to the Manila Doctors' Hospital accompanied by the film outfit's doctor, Eliza Tech, who said the actor probably had three broken ribs.

The mishap occurred while O'Brian, actress Tisa Chang and actor Jim Mitchum were shooting a rustic scene in a rice paddy in Pila Town, Laguna Province, about 40 miles southeast of Manila.

Joe Sights In

Senator Joseph Mack (D-Ironwood) announces that he'll start a full scale investigation into statements attributed to the Department of Conservation that blamed slow Upper Peninsula deer hunting on winter starvation of the deer herd.

This action was inevitable and should be welcomed by the Conservation Department. It won't be, of course, because the Conservation Department is controlled by the Legislature, which appropriates most of the money for its budget. And you don't help a conservation program by quarreling with the Legislature.

Senator Mack has been a critic of the Conservation Department for years. He has used the deer herd management bit in earlier blasts at the Department and its officials went into mourning when they learned that he had been elected a state senator. It enlarged his opportunities for making mischief with the state's conservation program.

The Conservation Department, of course, isn't beyond error. Governor Romney's citizens committee study of the Department in 1963, augmented by a professional study of the Department by the National Wildlife Institute, found some things in need of change. Most of them have been attended in a thorough revitalization of the Department.

It is the judgment of most professionals, we believe, that the Michigan Department of Conservation is now well staffed with competent people and that it has a good program and is doing a good job of managing Michigan's natural resources in the public interest.

The Department's greatest failure has been in not instructing the public well enough in its program and the reasons for it so that it could avoid noisy public criticism of such programs as the shooting of antlerless deer. (Done to reduce the herd to a balance with natural feed.)

Mack's charge that the Conservation Department has bungled deer herd management by killing off too many does should be investigated. But persons who are informed and who want Michigan to have a good conservation program must be concerned that Senator Mack proposes to be both prosecutor and judge, as chairman of the Senate Conservation Appropriation Committee, which will make the inquiry.

This is a situation where a devoted and able agency is being harassed in its effort to educate the sportsmen to accept a progressive program of wildlife management. There are strong political implications in the attack and it can be seriously hurtful to the cause of conservation by hobbling the Conservation Department with political controls that will force it to drop policies being followed in Wisconsin and other states with good wildlife programs.

Mack's latest attack on the Conservation Department should make the public grateful for organizations like the Michigan United Conservation Clubs, the state's biggest organization of sportsmen. It is not vulnerable, like the Conservation Department, to punitive action by the Legislature and it can tell the public where it's interest lies in the controversy.

Wider Horizons?

By RAY CROMLEY

WASHINGTON (NEA) — When political science professors get together, there is considerable criticism of the way schools teach government. Usually nothing happens.

But one critic who is stirring attention within academic circles is Robert E. Cleary of American University here.

No punch-buller, Cleary says last year's affirmative action law, "Secondary school focus on the factual minutiae of governmental structure... value of property he owns" (This) narrow treatment of things political does not prove overly successful in the development of citizens who understand the workings of American democracy and can actively help preserve it."

Cleary would like to see our students take up questions like these:

"What, for example, is the responsibility of the individual in an organized society? What limits on his conduct must he recognize? What positive obligations must he accept? Is it enough for him to obey the law and to pay his taxes? Moreover, what is his responsibility insofar as obeying the law is concerned? Should he refuse to buy merchandise offered for sale on Sunday in violation of a local blue law? Should he refuse to buy a drink of whiskey in a night club in a legally dry state?"

"Is there a higher order of responsibilities beyond mere observance of the law, particularly for the citizen of a democratic society? Must such an individual vote? Keep informed on political affairs? Participate in party politics? Act in the general interest rather than in the specific interests?"

"And if the response to this last query is affirmative, what does action in the general interest mean? Supporting zoning regulations that will limit the value of property he owns? Supporting the reduction of tariffs when this will hurt his business? Supporting foreign aid when it will increase his taxes?"

Cleary wants more classroom discussion on the practical application of political power and political objectives through political parties, interest groups, (competing) government agencies and through "public opinion."

He wants the teachers to ask questions like these of their pupils:

"Does liberty include equality? Does promoting the general welfare include Medicare? How much order is desirable and how far should the government go in enforcing order? Do we want a society in which government interferes with individual action only when interference is absolutely necessary? When is interference absolutely necessary? Do we want a society that reaches a balance between the needs of order and of individual freedom? How do we reach a balance?"

"Is justice to be the measuring stick? What then, is just, and who determines it. Do the people make decisions of this nature in a democracy? If so, can the majority override the rights of the minority? If not, are we a democracy?"

Cleary thinks that this sort of student "decision-making" can be used to achieve a better understanding of how and why the government works as it does.

As things are now, Cleary says: "A sizable number of young Americans leave school with but a disorganized smattering of knowledge about the structure of their government and with almost no understanding of its processes."

Cleary suggests this can lead to trouble.

The victim, Joseph Weisz of nearby Hyattsville, Md., lost both hands when he triggered the starting mechanism of a meat chopping machine he was repairing.

Fellow workers immediately applied tourniquets to stop the bleeding and Weisz was rushed to the hospital in an ambulance. His severed hands were taken along in a paper bag.

Surgeons at the national orthopedic and rehabilitation hospital replaced the hands in delicate hours-long operation. They reported initial success at restoring circulation.

So Where Do We Go From Here?

NURSING HOME

I wish to bring to the attention of the taxpayers of Alger County some pertinent facts and figures regarding the proposal to establish a medicare facility in Munising at a special election on Nov. 30.

Recent developments revealed today by Mrs. Alice Alley, social welfare director for this county, that the Kerr-Mills Act will now pay 90 per cent of care for all patients over 65 receiving social security benefits. This would leave Alger County only 10 per cent of the balance for patients in this category.

For a person in a licensed nursing home in Alger County charged \$215 per month, \$193.50 would be paid by Kerr-Mills, leaving a balance of \$21.50 per month, or 71 cents per day, to be paid by Alger County. The patient must pay medication, doctor, and incidentals from his social security check.

Information from the welfare department in St. Ignace reveals that the cost of nursing care per patient is \$106.63 per day. Ninety per cent of this amount is paid by the Kerr-Mills Act, leaving a balance of \$10.66 per day to be paid by the county, or a total of \$31.80 a month compared with \$21.50 per month per patient in the licensed nursing home in Alger County.

In view of these facts it does not seem practical to me that the taxpayers of Alger County should be burdened with additional millage for a medical care facility when the county

is already operating under deficit spending.

Our present licensed nursing home is undergoing an extensive expansion program which is designed to provide ample space for the chronically ill. This will collect increased taxes for our county, as their facility is a taxpaying business.

I also believe that if this medical care facility is constructed it will provide unfair competition to the already existing licensed nursing home. Eventually this would result in a considerable tax loss to city, county, and schools.

I urge taxpayers to vote "No" on this proposal at the special election to be held on Nov. 30.

Orland J. Powelson
Member of Munising City Commission
301 E. Superior St.
Munising

MILLAGE

At a meeting of the membership held on Nov. 2 the Escanaba Area Taxpayers Association unanimously agreed to accept the recommendation of their Board of Directors who had studied the report of the Airport Study Committee and other pertinent facts and recommended a definite Yes vote (Dec. 6 on 2 mills for 2 years for Escanaba Airport improvement).

We of the Taxpayers Group are of the opinion that the suggested improvements to our airport facilities are urgently needed and have been needed for some time.

We also feel that, although it is another tax on real estate that is already overburdened with every agency's problems and needs, the airport improvement of 2 mills for one year is justified. The benefits

that the Eaton Manufacturing Co., of Gladstone will produce in this area will alone justify the expense of satisfying the airport needs of their officials.

We therefore strongly urge a Yes vote on Dec. 6.

Escanaba Area Taxpayers Association
Harold W. Gasman, Secretary

MILLION FOR SCHOOLS?

We of Escanaba are aware of the fact that this area is in need of new schools and additional school classrooms. We are also aware of the approximately 1 million dollars that the people of Escanaba have on investment from the sale of the gas utility.

We of the Escanaba Area Taxpayers Association would like to suggest that details be worked out so that this million—or what portion is needed—be used for the building of these new schools and classrooms.

Naturally, the people of Escanaba would have to approve such an arrangement by vote, but we think that this is our money and there is little common sense in putting that money out at interest and at the same time borrowing a like sum to build schools.

There may be some complications in consummating such an idea because there are three townships involved with the City of Escanaba in the Area School System, but we feel that this can be resolved.

However, we strongly feel that the City Council should hold the purse strings on the million and appoint a lay committee to study the school needs and see to it that this gas money is spent for practical and functional schools.

We have one show-place—the Senior High School—and don't need another.

We therefore submit this idea to the people, the City Council and the School Board to see what they can work out of it.

Escanaba Area Taxpayers Association
H. W. Gasman, Secretary

Editorial Dept. Escanaba Daily Press

Your editorial of Nov. 17 was most interesting and thought-provoking. I must admit that I gave you a wrong figure in telling you that the hospital employs 54 persons from Gladstone. Actually, the hospital employs 61.

I thought perhaps you would be interested in an exact breakdown of the number of fulltime and part time employees of the hospital from the surrounding communities. They are:

	Full Time	Part Time
Bark River	9	1
Brampton	3	
Cedar River	1	
Cornell	3	1
Ensign	1	
Flat Rock	1	
Gladstone	42	19
Hyde	1	
Perkins	3	
Rapid River	3	1
Rock	1	
Soo Hill	1	
Wells	8	4

The above figures do not include several employees who have route addresses from the Escanaba Post Office.

St. Francis Hospital
John F. Haines
Associate Administrator

There were approximately 11,900 fire deaths in the United States in 1964, an increase of 100 over 1963.

People, Events Of Yesteryears

From the files of the Escanaba Daily Press

25 YEARS AGO

If a test well on which operations are scheduled to start the first of next week is successful, the city of Escanaba will sink probably another one or two wells to give an adequate supply of 3,000 gallons a minute. George Bean city manager reported.

Jack Ettenhofer, son of Chief of Police and Mrs. Mike Ettenhofer, is on the high seas enroute to Panama, San Diego and then Hawaii, according to word received by his parents, telling also of this recent graduation from the United States naval school of music.

50 YEARS AGO

Although there was little snow on the ground in the city, a farmer drove into Escanaba from the Danforth settlement with a pair of sleighs. He reported sleighing conditions northwest of the city and was surprised to find so little snow in Escanaba. At Negaunee, a foot of snow on the ground was reported.

"K-E-N-O" will be the watchword, the hailing sign and everything but the signal of distress at the Elks club rooms tonight.

Miss Dymna Stoik entertained the members of the Entire-Nous club at her home on Hale St.

BARBS

By WALTER C. PARKES

The cocktail hour lull which drives home is playing rush-hour roulette.

Now that the elections are over we sorta miss all that junk mail from candidates.

Too many women who wear stretch pants are lucky they do.

The way some folks allow their kids to run wild at night, you'd think they had plenty to spare.

Funny Robber

REDWOOD CITY, Calif. (UPI) — A colorful bandit robbed a branch of the Bank of America of \$3,705 Thursday in the presence of a dozen startled employees and 15 customers. Witnesses said he carried a six-shooter and wore a red mustache, a Swiss Tyrolean hat and a turtle-neck sweater. "This is a hell of a way to earn a living," he commented as he left by the back door.

Ann Landers

Angry Autoist Had Better Walk

Dear Ann Landers: My fiancée has a terrible temper. Whenever we get into an argument he storms out of the house and says, "I'm too mad to talk. I'll ride it out of my system." Then he zooms up the street in his car and heads for the open highway.

Wouldn't it be better if he stayed and talked things out? I worry that he might have an accident. He says he's a good driver and that this is a mature way to get over his anger. Comment, please? — DRUSEL, LA

Dear Dr. He would be better off if he parked the car and took a brisk walk — or even ran around the block. And so would everyone he meets on the road. An angry driver is a dangerous driver. I hope you can get this across to him before he becomes a statistic and takes a few people with him.

Dear Ann Landers: My husband and I just returned from a vacation on the west coast. Last Sunday we wanted to spend a quiet hour in a house of worship.

We were appalled at what we saw. Several school age children were whispering, laughing, and hitting each other during worship. They popped gum, ate peanuts and rattled candy bar wrappers.

Two boys about seven years old lay down in the pews and pretended to be pedaling bicycles. One youngster left for the bathroom right in the middle of the Lord's Prayer.

Both my husband and I hope that the parents who read this will ask themselves if they are guilty of allowing their children to behave in this shameful manner. — MILES, CITY, MONTANA

Dear Miles City: Parents who permit such behavior disclose a shocking lack of respect for their religion. It isn't enough just to take children to church. They should know why they are there and they should be taught how to behave.

Dear Ann Landers: Before passing sentence on two teenagers convicted of car theft an Illinois judge said some things which I feel are worth repeating. The judge said, "You two young men have been convicted of a felony. A felony is a crime for which you could have been sent to the penitentiary. I am not sending you to prison but

you should know the record of your conviction will stand as long as this court house stands.

"If you are called as a witness in any court you will be asked if you have ever been convicted of a felony. You will have to answer 'Yes.'"

"Perhaps someday you will apply for a passport. You may not get it."

"You may want to take a position of trust and a surety bond will be required. When your record is known you will be refused by most bonding companies. By the time you find a company which will take a chance on you, the position will be filled by someone who has no criminal record."

"In a few years you will be 21. Others your age will be allowed to vote. You will be denied this privilege."

"I am granting you a parole. A parole is no sense a pardon. Your conviction is now a matter of record. It will be with you to the end of your days."

M. M. R.

Dear M. M. R.: The judge's words are sobering, indeed. Only a full pardon from the governor or the President can restore citizenship rights to a felon. But even if a pardon is granted, the record stands forever.

P. S. My legal eagles tell me that if the sentence is served and the individual is not on probation, a passport can be secured.

"The Bride's Guide," Ann Landers' booklet, gives authoritative and complete information on how to plan a wedding. To receive your copy of this comprehensive guide, write to Ann Landers, in care of this newspaper, enclosing a long, self-addressed, stamped envelope and 35c in coin.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a stamped, self-addressed envelope.

Ionia Fair Has \$41,726 Profit

IONIA, UPI — The Ionia Free Fair showed a profit of \$41,726 for its 1965 eight-day run in August, according to Corris Teachworth, secretary-manager. The fair is the second largest in the state and has been in operation since 1915.

Officers Plan UPCAP Reform

The executive committee of UPCAP meeting recently in Manistique proposed a reconstruction of the organization's delegate body, now composed of 14 members appointed by 14 U. P. county boards of supervisors.

The Upper Peninsula Committee on Area Progress executive group recommended to a meeting of the delegate body to be held next Monday, Nov. 22 at 10 a. m. in the State Office Building that UPCAP's Article 3 on membership be amended to provide "one member appointed by the chairman of the board of supervisors, subject to the approval of his board, from each constituent

county. An alternate delegate with full authority to act in the absence of the delegate, on all matters save that of an elected officer of UPCAP shall be provided in the same manner as the delegate.

"And one additional delegate shall be appointed in each member county, the additional delegate to be jointly nominated by the universities, counties, planning commissions, community action and economic development committees, with the final approval of the board of supervisors."

The plan would limit the restructuring of UPCAP requested by the U. S. Office of Economic Opportunity, which is a

chief source of UPCAP income through federal grants for technical assistance given by UPCAP's staff to War on Poverty projects in the Upper Peninsula.

UPCAP's executive committee includes Harold Dettman, St. Ignace, chairman; Fred Hahne, Manistique, treasurer, and Robert Ray, Ironwood, secretary.

SAFE DRIVER PLANS

In most states, the Insurance Information Institute reports, motorists with clean driving records for a specified period of time are given basic premiums for liability and collision insurance.

Hermansville

Recent successful hunters in the Hermansville area include: Mr. and Mrs. Jack Scholtz, Taylor, Mich.; Mrs. Mildred Landers of Hillsdale; James Ayotte, Detroit; Ted Ayotte, Dearborn; Walter Peters, Hermansville; John Poe, Detroit; Joe Gronyak, Lincoln Park; George Tomascik, Hermansville; Bill, Douglas and Phil Arnold, George Nieman, Wayne, Mich.

Mass on Sunday, Nov. 21 at St. Mary's Church, Hermansville will be at 8 a. m. and 7 p. m. EST. Mass at St. Mary's Faithorn at 11:30 EST.

Attend the Church of Your Choice

THE CHURCH FOR ALL
ALL FOR THE CHURCH

We dare not forget that when our forefathers celebrated the first Thanksgiving Day they weren't at all sure that their meager harvest would be adequate to sustain the little community through a long hard winter. About all they could give God was thanks!

Gratitude for our blessings in time of abundance discovers a new dimension. We can become partners with the Almighty in His mighty aims.

For the very season in which Christians give thanks to their Lord is the season in which they plan their stewardship—their support of the Church's continuing work.

If you are a church member, demonstrate your thanksgiving in earnest commitment to your congregation's spiritual opportunity. If you are not a church member, express your thanksgiving by discovering your own spiritual opportunity.

Spiritual dedication is about the only life resource of which we do not have more than we absolutely need!

Copper Released From Stockpile

WASHINGTON (UPI) — President Johnson has approved the release of 200,000 tons of copper from the government stockpile on grounds that it is needed for national defense.

The White House released a memorandum from the President to Buford Ellington, director of the Office of Emergency Planning, to release the copper.

It also made public a memorandum from Ellington saying, "The present situation in the market for copper and the outlook for the near future poses serious risks to the common defense."

An increase in copper prices by U.S. companies led to the government action.

A White House spokesman said the government will use about 250,000 tons of copper next year and that Defense Department requirements would be about twice the amount used this year.

He said there was a world shortage of copper and that the supply outlook had been affected by strikes in Chile and

uncertainty about production in Zambia, which adjoins Rhodesia.

Indians Only In Menominee County Hunt

MADISON, Wis. — This year's nine-day deer season in Menominee County, one of the most liberal in the state, will give further control on a deer herd already small by Wisconsin standards.

The liberal season is intended to protect forest reproduction against excessive deer browsing. "Wood products are the mainstay of Menominee County's economy, and their forest will continue to thrive only if the deer population remains low," explains Bob Wendt, northeast area game manager for the Wisconsin Conservation Department.

Wendt points out, however, that deer hunting prospects for most sportsmen are not good. "Virtually all lands within the county belong to the Menominee tribe, and are posted against trespass by outsiders. There are no plans for issuing entry permits to non-tribal hunters," Wendt explains.

Until it became a county, Indians on the old Menominee Reservation hunted at any time under few restrictions. The deer herd was small. Now, only tribe members will be able to take advantage of the liberal season.

Doe Hunt Ban Talk Revived

IRON RIVER — It'll be months before the State Conservation Department determines the success ratio of the 1965 deer hunting season, but meanwhile the annual cry for an end to shooting of antlerless deer has been started.

Harold Schneider, Bates Township, deer hunter for 43 years, discarded his rifle after the first day, claiming he had never seen such an unsuccessful start of a deer season.

In his initial check of 11 camps in the Morrison Creek area north of Iron River, he learned that only six deer, including five does, had been shot by 49 hunters during the first three days of the season.

"The only thing I can predict for the 1966 deer situation is a further decline in the white-tail numbers, and I recommend the season should be closed entirely, at least for one year," Schneider said.

State Sen. Joseph S. Mack (D-Ironwood) said the senate conservation committee of which he is chairman would begin an immediate investigation into both the impact of permitting hunters to take female deer and the accuracy of the estimated winter deer kill.

Tech Students Send Cards To U.P. Servicemen

"Operation Appreciation" is in full swing on the Sault Ste. Marie campus of Michigan Tech where 250 Christmas cards to Michigan servicemen in Viet Nam have already been sent out, according to Warren Zimmerman of Grand Haven, chairman of the project.

"We really hope to have more addresses sent to us," Zimmerman said today. "There are 960 students here, and each of us would like to send a personal message to some Michigan fellow who is doing the job for us in Viet Nam."

The notes are sent on two typical cards. One, from a co-ed reads "With deepest appreciation I sit to write this card. I know my words of gratitude seem awfully small to a person in your position, but I offer them in true sincerity. You can be sure you are remembered in my prayers each day. May God bless you and keep you safe." Another card signed by a

MODERN DAY JONAH—In no real danger of repeating Biblical Jonah's fate, British comedian Harry Secombe peers from a jolly whale high and dry in New York's Central Park. The mock sea creature is a feature at the park's zoo, where Secombe, star of the Broadway musical "Pickwick," was having himself a whale of a time.

Feeder Calves U.P. Prospect For Farm Cash

Producers of beef feeder calves are apt to have a strong voice in the future of the cattle business. Michigan State University livestock and agricultural economics specialists say the grass limitations in the West and Southwest will prevent any great expansion of cow herds in that area, unless some method of irrigating range land is devised. This is not likely in the immediate future.

The areas for expansion are in the northern Great Lakes area and the South, where there remain considerable grassland and cropland not considered highly valuable for production of other crops.

When charging all feed for maintaining the cow herd, replacement heifers, and breeding bulls to the feeder calf, it requires approximately four times as much feed energy to produce a pound of weanling calf as it does to take a 425-pound feeder calf to a 1,000-

male student said: "All America appreciates your being in Viet Nam risking your life so that we may live in a free America. The students of Michigan Tech wish you a Merry Christmas and a quick and safe return home."

pound slaughter steer. This for the most part is done with hay and grass. For this reason agricultural specialists see new opportunities for cow-calf programs in northern Michigan counties.

The only way a farmer or livestock man can be sure this is a profitable business is through keeping adequate records, says J. L. Heirman, Delta County Extension agent.

Caught Caneless

BRISTOL, Eng. (UPI)—Patrick Mooney limped into court leaning on a stick, but a few minutes later came walking out minus his affliction. The court hearing his claim for damages resulting from an accident had shown him film of himself walking springily near his home. The claim was dismissed.

Snowfall Hits Escanaba Area

The first ground-covering snowfall of the season blanketed the Escanaba area Friday night, bringing out the snowplows to clear main streets and causing hazardous driving conditions.

Motorists took warning, however, and reduced speed and drove carefully. There were only two minor traffic mishaps in the city during the night after the snow came.

About 2½ to 3 inches of snow covered the ground early today but rising temperatures melted much of it within a few hours. The temperature had risen to 35 degrees by 7

With The Deer Hunters

Hunting at Camp "30" this week at McFarland will be Bob Caron, Fran Lueneburg, Len Boudreau, Ed Blau, John St. Jacques and Jack Berglund.

Pete Couillard of Wells bagged a four-point 140-pound buck about 10 a. m. Friday while hunting from the Con Pratt camp at Stonington.

Mrs. Hattie Simpson reports her hunting party of three had 100 per cent success from her camp north of Ralph. Harlow Simpson, her nephew from Grand Rapids, bagged a buck last Saturday, and her grandson, Bill Shiner, 502 1st Ave. S., got a buck Sunday. Mrs. Simpson bagged a doe Thursday.

Julian VanAcker, Rte. 1, Gladstone, brought down a 125-pound doe at Cornell.

a. m. after a low of 31 last night.

Continued cloudy and light snow is forecast for today, becoming partly cloudy and sunny with a high of 37 on Sunday, according to the U. S. Weather Bureau.

The outlook for Monday is mostly cloudy and little change in temperature.

The snowfall was welcomed by children, who grabbed for sleds and skis, and by the deer hunters who like to have a fresh supply of tracking snow for success in the hunt.

Lansing Sets Up 45-Foot Tree

LANSING (UPI) — A 45-foot high Christmas tree was set up on the front walk of the Capitol Friday.

The 23-year-old, 45-foot high blue spruce was donated by Mr. and Mrs. William F. Glumm of Lansing. Forestry crews, who moved the tree from the family's backyard, will decorate it next week and turn on the Christmas lights next Wednesday.

Escanaba Area Public Schools Lunch Program

The following meals will be served in the Escanaba Area Public Schools next week:

Monday, Nov. 22: Char-broil (hamburger), whipped potatoes, buttered green beans, sandwich buns and assorted fruit.

Tuesday, Nov. 23: Beef and gravy, buttered rice, oven fried whole kernel corn, whole wheat tea buns and coconut cream pudding.

Wednesday, Nov. 24: Thanksgiving Day lunch. Oven fried chicken, whipped potatoes, buttered carrots and peas, tea buns and orange cake.

Thursday, Nov. 25: No school. Thanksgiving Day.

Friday, Nov. 26: No School. (½ Pint of Milk Included With Each Meal)

Peggy Taylor Wed To Jack W. Niles

In a double ring ceremony, Saturday, Nov. 13 at St. Joseph Church in Escanaba Peggy Taylor became the bride of Jack William Niles. The Rev. Fr. R. Farrell officiated at the 11 a.m. nuptials for the daughter of Mr. and Mrs. William Taylor Sr., 823 2nd Ave. S. and the son of Mr. and Mrs. William Niles, 425 S. 16th St.

White Satin
The bride was attired in a floor length gown of white satin with a chapel train. The bodice featured a scoop neckline and three quarter length sleeves. Her waist length veil was held by a single nylon bow. She carried a white prayer book on which was placed a single white mum.

Her attendants were attired in floor length gowns of yellow satin featuring chapel trains and brocade bodices. Yellow satin bows held their short length veils. They carried bouquets of yellow pompons centered with a single white mum. Maid of honor for her sister was Susan Jean Taylor, Escanaba, and Barbara Olson also of Escanaba was bridesmaid. In the role of flower girl was Cheryl Tardiff of Cornell and she wore a miniature replica of the

bride's gown. Jeff Bartoszek of Perronville was ring bearer. Frank Trotter served as best man and groomsmen were Terry Anderson. Seating the guests was Jack Hughes.

Mother's Attire
For attending the wedding and the reception which was held at the bride's home, Mrs. Taylor chose a black dress with a scoop neckline and she wore a corsage of white carnations and red rose buds. Mrs. Niles wore a green flowered suit and she was presented a corsage of pale green and white carnations.

The newlyweds now make their home at 1206 Ludington St.

Doughnut Sale At St. Patrick's Sunday Morning

St. Patrick's Home and School Association is sponsoring a doughnut sale in the basement of the church, Sunday morning, Nov. 21, beginning after the 6:30 a.m. mass and continuing throughout the morning.

Louis Carr and Fred Saykly will be making the doughnuts and plain and frosted doughnuts will be featured. Coffee and doughnuts will also be served during the sale.

Mrs. Alice Cater

National Honor For Mrs. Cater

Mrs. Alice Cater, wife of Capt. Otis Cater Jr. of K I Sawyer AFB has been selected as one of the outstanding young women of America. Mrs. Cater's name will appear in the 1965 publication of the book, "Outstanding Young Women of America."

Purpose of the book is to recognize an individual with outstanding abilities, accomplishments, and service to her community, country and profession.

The activities which qualified Mrs. Cater for the honor include a Bachelor of Business Administration degree with majors in banking, finance and general business from Southern Methodist University. While there she was a member of Campus Organization for General Service, Campus League of Women Voters, Association of Women Students Methodist Student Movement, Wesley Players, Wesley Choir, Marketing Club, Inter-collegiate Debate Club and Chancery (Pre-Law) Club.

At Southern Methodist she helped to organize and write the constitution for the National Chancery Club, served as the supreme clerk of the court (secretary), and the supreme court reporter. She was the first woman to be awarded the gold chancery key for pre-law merit, service, and scholarship. She was on the Dean's list and a member of Phi Chi Theta and Alpha Delta Pi Sorority, where she served as recording secretary, assistant treasurer, and registrar.

She also has a Master of Business Administration Degree with a major in finance from the University of Texas and is now working on a PhD degree.

Project Head Start Reviewed At PTA Meeting

BARK RIVER — Three Bark River-Harris instructors, Mrs. Lawrence Bell, Mrs. Charlotte Toustignant and Miss Jane Bratina, who taught under the Project Head Start last summer were on the program of the Parent - Teacher Association meeting held Wednesday evening in the elementary school.

Mrs. Bell told of the six day attendance at a school of instruction held in Marquette last June, where they had three classes a day, a special library, teachers, a registered nurse, a medical doctor and other personnel who showed films and slides on nursery schools and what to expect of pre-school children.

Miss Bratina showed slides on the activities of the youngsters last summer and of the many field trips. All three teachers commented on the slides as they were shown. Project Head Start also required three bus drivers, a cook and three helpers. The project will be repeated next summer.

Richard Hendra, superintendent, reported that members of the Menominee-Delta Health Department were at the school on Monday to give shots to the students and are now in the process of giving eye examinations. He announced that parent-teacher conferences will be held Dec. 2 and 3.

The Federal Government has allotted money for the school district which must be used for the needs of children with special problems. He added that after the Christmas holidays a class will be conducted for children who have difficulty in reading.

Announcement was made of a basketball game between the teachers and alumni during the holidays with proceeds for the benefit of the Student Loan Fund.

The first basketball game of the season will be held on Wednesday, Nov. 24. The PTA sent a subscription to the PTA Magazine to Peter L. Smith, Isleworth Grammar School, Isleworth, Middlesex, England.

The freshman and junior classes won the room award. The next PTA meeting will be held on Wednesday, Jan. 19. Lunch was served by the first grade mothers.

Births

NORDBERG — Mr. and Mrs. Carl Nordberg, 7540 Hampden Lane, Bethesda, Md., are the parents of a daughter, Mary Margaret, born Sunday, Nov. 14 at the Columbia Hospital in Washington. The infant weighed 6 pounds and 11 ounces. Mrs. Nordberg is the former Kathryn Jane Welch, daughter of Mrs. John J. Welch and the late Dr. John J. Welch.

Homemaking Tips

Packing leftover turkey for the freezer is an art! Put those large slices together in one container, bits and pieces in another; then each kind will be ready to use appropriately.

Hints from Heloise

By HELOISE CRUSE

Dear Heloise:

I wonder if women know that when cooking more than one package of the same kind of frozen vegetables, they should not pile them on top of each other in the pan?

It is much better to use a pan large enough so that the frozen vegetables can stand side-by-side in the pan. Then the steam will go up between the blocks of vegetables, thus cooking them more easily, and avoiding having some that are slushy and overcooked, while some are underdone.

Pat Ryan

Dear Heloise:

I often work nights, and have to sleep in the daytime, so I made black corduroy drapes for the bedroom.

They are very easy to care for, and go with any color.

Mrs. Clarence Rupp

Dear Heloise:

My hobby is painting-by-number.

For a long time it was difficult for me to get the little capsules or tiny jars of paint mixed without making a mess.

Finally, I got the idea to use TOOTHPICKS!!

They work just great. Hope this may be of some use to your paint-by-number fans.

Shirley Norvell

I am sure that it will be. Thanks, Shirley.

Heloise

Dear Heloise:

Our daily paper (in which your interesting column ap-

pears) contains one page of comic strips, a crossword puzzle, and joke cartoons. I keep these pages, and when there are 20 or 30 of them I send them, in book form, to people who live in another area.

The children enjoy looking at the comic strips; mother does the crossword puzzles, and dad laughs at the cartoons.

These pages can be passed along to the children's friends, or taken to a hospital, with a get-well card to cheer up someone.

Mrs. B. H.

Dear Heloise:

For mothers whose babies have outgrown their wooden highchair:

I made a darling kitchen stool out of ours by sawing the back of the seat and the arms off.

Gloria Vaughan

And did you know that they also make darling play chairs for the older tot by sawing the legs off? The tray may either be removed or left as is. Wonderful for a TV chair, too.

Heloise

Dear Heloise:

My daughters made cushion pads to protect their heads from the discomfort of sleeping on those prickly brush rollers.

They cut pads (a half - men by one - and - a - half inches) from an old piece of felt, making a slit in the center of each felt pad large enough to fit over a portion of hair to be rolled.

The felt piece is slipped over the hair and pushed down next to the scalp before the roller is put on. Exactly as a beauty operator used to do when giving a permanent.

Steady

Dear Heloise:

Tell all the gals not to throw away those old, worn, fleecelined sweat shirts.

Cut into squares, they make wonderful shoeshine cloths.

Minnie L. Smith

Dear Heloise:

When I wear a strapless evening dress and am fortunate enough to get a corsage, I tape the flowers to my shoulder. It's quite surprising how many compliments I get.

S. F.

Jane Bratina Bride Of Roy J. Chaulkin

Our Lady of Sorrows Catholic Church in Ladysmith, Wis. adorned with bouquets of pink and white gladioli, was the setting today, Nov. 20 for the marriage of Jane Bratina of Bark River to Roy J. Chaulkin Jr. also of Bark River. The 12 noon double ring ceremony was solemnized by the Rev. Alex Anton. The bride is the daughter of Mr. and Mrs. George H. Bratina of Ladysmith. The bridegroom's father is Roy Chaulkin Sr. of Bark River.

The bride wore a floor length gown of pink lace over taffeta featuring full skirts and plain taffeta bodices. Their lace triangle headpieces were tied with velvet bows and they carried pink and white nosegays.

David Chernick of Escanaba was best man and George and James Bratina, brothers of the bride were groomsmen.

Mrs. Bratina chose for her daughter's wedding, a chestnut colored dress with matching accessories and a matching corsage.

Rehearsal Dinner
The rehearsal dinner was held Friday evening at the Tea-A-Way Lodge in Ladysmith and the reception is being held this afternoon at the Club 8 in Ladysmith from 1 to 5 p.m. Assisting at the reception are Mrs. Edwin Schmidt, aunt of the bride, cutting the wedding cake and Myra Hakes and Elizabeth Bratina will be circulating the guest book.

When the newlyweds leave for a honeymoon of an undisclosed destination, the bride will wear a dark blue suit with a corsage of red roses. Upon returning they will make their home in Bark River, where the bride is a teacher in the Bark River-Harris Elementary School. She is a graduate of Our Lady of Sorrows School for Girls in Ladysmith and she graduated from Wisconsin State University in 1964. Mr. Chaulkin is a graduate of Bark River-Harris High School.

Out of town guests attended from Walnut, Iowa, Milwaukee, Muskota, Ill., and Hudson, Wis.

Eskymos Defeat Holy Name In Cage Opener

Paul Miller Hits 20 To Set Victory Pace

Extended until midway in the final period, the Escanaba Eskymos took command in the closing minutes of action to defeat Holy Name, 65-50, in a Great Northern Conference basketball opener before a full house at the Escanaba gym Friday night.

Leading by eight points, 48-40, with four minutes remaining, the Eskymos surged out of reach on a pair of free throws by center Bernie Larson and two driving layups by guard Rick Kutchenberg to make it 51-40. Holy Name was unable to close the gap in the stretch.

Although they led only after the first field goal of the game, by Tom Smith, and managed to tie the score only twice after that, the Crusaders gave the taller and more experienced Eskymos a surprising run for their money.

Forward Paul Miller snapped a 4-4 tie with a field goal for Coach Harold Johnson's Eskymos who were never to trail again in the game. They had a 12-8 cushion at the end of the first frame, led 23-19 at the half and 40-34 entering the fourth quarter.

Outscrapped on the boards in

Garden Jets Defeat Nahma

NAHMA—The Garden Jets opened action in the Central League here last night by downing Nahma, 72-52, behind a 35-point barrage by Darrel LaVigne.

Coach Dave Pelletier's Jets raced to a 22-10 lead in the first period but the Arrows rallied to cut their deficit to 27-24 just before the end of the half.

LaVigne pumped in three field goals to open second half scoring and Garden zoomed away to a 62-38 cushion before Nahma rallied again with a 10-point scoring spurt.

Mike Thibault followed LaVigne in the Garden scoring column with 15 points. Rick Schafer led the Nahma point producers with 21.

Nahma won the 7th grade preliminary game.

Lions To Face Bears Again In Revenge Battle

DETROIT (UPI)—The Detroit Lions have a score to settle Sunday but they'll need another all-out effort on defense and the offense will have to recover from last week's case of fumbleitis or there will be no score setting in Tiger Stadium.

The Lions will be facing the strong Chicago Bears for the second time this year with the memory of their meeting just a month ago still fresh on their minds.

In that contest George Halas' Bears ignored the reputation of the Detroit defense and sauntered to a 38-10 win.

But Detroit is hoping for its second revenge win of the year. The Lions stunned Green Bay, 12-7, two weeks ago after the Packers had burst away for a 31-21 win earlier in the season.

To stop the Bears, Detroit will have to quell their explosive offense, featuring rookie halfback Gale Sayers. The speedster has scored 11 times this season, six times on running plays and five times on passes.

Sayers also ranks as the top kickoff return man in the National Football League. He has a 34.1 yard average. The young Chicago star was shaken up during a punt early in the first game between the Bears and Lions and consequently missed much of the game.

The other big Chicago threat is a double-barreled one, in the form of pass receivers Johnny Morris and Mike Ditka. Morris is a flanker has caught 32 passes for 348 yards and four touchdowns while Ditka has pulled

the early going, the Eskymos began getting position in the late stages of the game and Miller and Jim Boyle found the range with deadly short jump shots from the side of the lane. The Crusaders became more aggressive in their efforts to wipe out their deficit, and the Eskymos took advantage of personal fouls to pad their lead.

Coach John Butrymowicz used a platoon system in an effort to keep the Eskymos off balance. He opened the game with Jerry Wiles, Tom Plouff, Smith, Greg Brandt and Jim Anderson against Escanaba's Miller, Boyle, Bob Myrvall, Kutchenberg and Bob Haack. Midway in the first quarter Butrymowicz substituted a new unit composed of Dave Cannon, Tom Menard, Bob Dufresne, John Hughes and Bob Brisco who switched tactics with a pressing defense.

Four Eskymos reached double scoring figures, led by Miller with 20 points. The veteran junior front-liner mixed a short jumper with driving dunks for nine field goals and added two free throws. Boyle and Haack tossed in 11 points while Larson came through with 10, six of them from the foul line.

The Eskymos outscored the Crusaders by five field goals, 25 to 20, and converted 15 of 30 attempts from the charity line. Holy Name clicked on 10 of 24 gift shots.

Smith paced the balanced Crusader scoring with eight points, followed by Plouff with seven and Menard six while four others tallied four apiece.

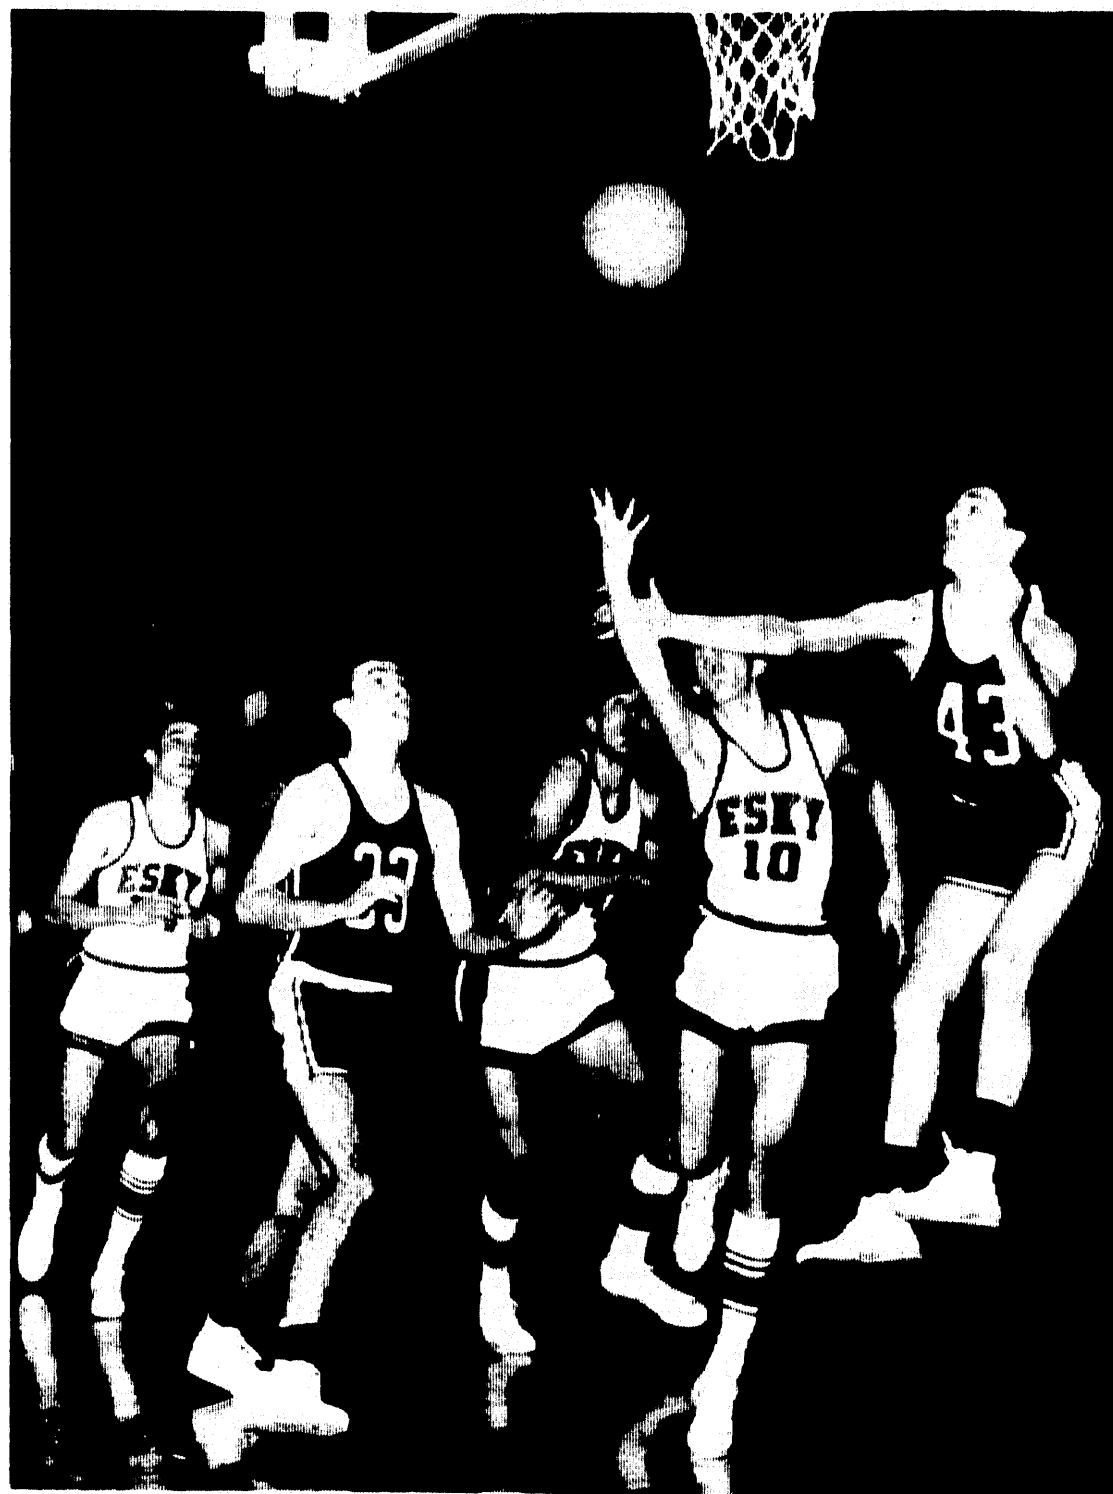

The victory increased Escanaba's margin to 9-6 in the series between the schools that began in the 1954-55 season.

Escanaba also won the jayvee preliminary, 64-55.

RICK KUTCHENBERG (10) attempts an underhand layup for the Escanaba Eskymos against Holy Name in the season opener last night and is fouled by Crusader Tom Smith. Other players are Jerry Wiles (33) of Holy Name and Jim Boyle, left, and Bob Myrvall, center, of Escanaba. The Eskymos won by a 65-50 margin. (Daily Press Photo)

Braves Bomb Opening Foe

GLADSTONE—The Gladstone Braves dropped a surprise bomb to open the Great Lakes Conference basketball warfare Friday night, drubbing the Negaunee Miners by an 82-65 margin.

Coach Bill Wood's cagers, making up for their lack of height with speed and hustle, broke for a 24-11 lead in the first quarter and Negaunee was never in the game.

With stubby Lynn LaPlant feeding off for a steady diet of solo layups off a fast break, the Braves pulled steadily away and led by as many as 20 points at one time.

Both teams pressed to open the game and the Braves banged in four field goals each by Russ Sargent and Mark Goodman to get off to their whirlwind start.

Goodman finished with 22 points while Dick Anderson pumped in 20. Sargent 19 and LaPlant 15. Sargent led the Braves to a 39-29 edge on the boards with 14 rebounds and LaPlant was credited with eight scoring assists.

The Braves hit at a hot 48 per cent clip from the field, making 36 of 74 shots, and added 10 of 22 from the line.

DeTour Trims Engadine Five

ENGADINE—The DeTour Red Raiders became the first Upper Peninsula cage team to break the century mark this season when they opened their Eastern Conference schedule with a 105-74 victory over Engadine here Friday night.

After a tight first half in which DeTour led 42-41, the Red Raiders exploded for 35 points in the third quarter and 28 in the fourth.

Thirteen DeTour players contributed to the scoring column.

Trenary Nips Rock, 63-60

TRENNY—The Trenary Comets shook off their first game jitters in the fourth quarter here Friday night to nip the Rock Little Giants in a Central League opener for both quaters.

Down by six to eight points through the first half, the Comets rallied to knot the score at 45-45 entering the final quarter.

With Kim Peterson and Dennis Ylmen finding the range, Trenary pulled ahead to stay late in the game. Ylmen finished with 20 points, Peterson 16 and Ron Begovac 11. Reserve Glenn Lockhart came off the bench to contribute seven vital points, hitting three of four field goal attempts.

The teams were even from the field with 25 goals but Trenary made 13 of 21 free throws for the margin of victory. Rock hit on 10 of 16.

Coach Gene DeKeyser had three Rock players in double figures with John Norden taking scoring honors for the night with 21 points. Larry Lappens added 15 and Jeff Carlson 11.

Rock won the jayvee game, 50-43.

Emeralds Get Past Great Lakes Rival

MANISTIQUE—Coach Rudie Brandstrom's Manistique Emeralds built up a 12-point bulge early in the final quarter here Friday night and then had to hang on in the closing seconds to register a 69-68 decision over Ishpeming in Great Lakes Conference competition.

The Emeralds made their big move in the third frame when they outscored the Hematites by a 21-10 margin to go ahead, 56-46, entering the final quarter.

But Ishpeming rallied to narrow the deficit and it was nip-and-tuck down the stretch. The Emeralds clinched it when tall Tom Brawley swept a rebound off the boards following a missed free throw by Jon Cameron with less than five seconds remaining in the game.

Free throws played a vital part in Manistique's victory as the Emeralds were outscored by one goal, 27 to 26. They canned 17 of 24 from the line, compared to 14 of 24 for Ishpeming.

Carney Notches First Victory

CARNEY—Coach Bob Kuntze's Carney Wolves, who won 14 of 20 starts last season, jumped off to a successful start this season by trimming Alpha, 79-57, Friday night.

Pumping at a 40 per cent clip from the field, the Wolves ripped from the starting goal for a 25-11 lead and were never threatened.

In addition to canning 29 of 71 field goal attempts, the Wolves tossed in 21 of 32 shots from the foul line.

Brian Forgette paced the winners with 18 points and 21 rebounds. Doug Benson tallied 17 points and Jerome Bichel 11.

Individual scoring honors went to Alpha's Tim Stankevics with 25 points.

Carney also won the jayvee game, 64-48.

Doug Nelson had a hot hand from the gift line, dropping in seven straight shots, including five in the fourth quarter.

Brawley and Cameron teamed up to score 36 points and came up with the key rebounds, although Ishpeming surprised by at least matching the Emeralds on the boards.

Nelson and Dave Barton also reached double figures in scoring for Manistique while Jerry Belleville tossed in eight points.

Individual scoring honors in the game went to Ishpeming's Bill Zhulkie who tallied 23 points.

The junior varsity game was

also a one-point thriller with Manistique winning, 63-62.

Powers Tigers Claw Rockets

POWERS - SPALDING—Big Bill Hawrylow sizzled the nets with 11 field goals and one free throw for 23 points to lead Coach Tom LeQuia's Powers-Spalding Tigers to their 60-41 victory over Rapid River in the first game of the season for both teams Friday night.

The Tigers took a slim 13-9 lead, nursed it to 25-19 at half-time and then pulled out of reach with a 22-point surge in the third quarter.

Hawrylow also gave the Tigers a big edge on the boards, pulling down 12 of his team's 42 rebounds. Rapid River was limited to 27 rebounds.

David Smith tossed in 18 points and Dick Piche 13 to assist Hawrylow in the scoring department.

Pat Larrabee was the lone Rapid River player to reach double figures, hitting five field goals for 10 points.

Michigan Tech In Good Start

DULUTH, Minn. (UPI)—Michigan Tech opened the defense of its Western Collegiate Hockey Association title Friday night by pinning a 5-1 loss on the University of Minnesota, Duluth branch.

Minnesota took the lead on the opening shot of the game as Mickey Tok slapped home a shot from behind a screen, 35 feet in front of the Michigan Tech goal.

Tech, also the defending NCAA titlist, came back to tie the score late in the period as Bob Toothill scored.

Gary Milroy sparked the Tech forces the rest of the way, scoring at 7:29 of the second period and again at 10:22 of the final session. Ricky Yeo made it 4-1 for Michigan Tech at 12:19 of the last period and Wayne Weller finished it with a goal, assisted by Milroy at 15:25.

By quarters: Michigan 25 10 21 13-69; Ishpeming 22 14 10 22-68.

Canadiens Tie For Golf Lead

CARACAS (UPI)—Canadiens Wilf Homenuik and Alvie Thompson today shared the lead at 137 going into the third round of the \$15,000 Caracas Open golf tournament.

Homero Blancas of Houston, the Professional Golfers' Association Rookie of the Year, trailed the co-leaders by one stroke.

Canadian Bill Wakeham, who led after the first round with a 66, soared to 75 Friday to tie with six other players at 141. Tied with Wakeham were defending champion Al Besse-link, Wes Ellis, Dave Ragan, Spain's Angel Miguel and Venezuelan Tommy Fonseca.

Thompson began the second round only one stroke behind Wakeham, but Homenuik trailed by four strokes. Homenuik, the 29-year-old pro who edged out Thompson for the Canadian PGA title, got off to a bad start on the second round with two bogeys on the first three holes but finished with seven birdies on the last 10 holes for a 67.

"All I did was keep the ball in play, nothing fancy, just getting it down the middle of the fairway and getting a good pin position," said Homenuik.

A FIRST FOR MANY CHERRY HILL, N.J. (AP)—Jack Leonard, now riding at Garden State, had to ride more than 60 thoroughbreds before scoring his first victory.

He won his first race on July 26, 1957 at Landsdown Park, Vancouver, B. C. The horse was Never Out and it was the first time the horse won. It was the first winner saddled by trainer R. W. Hall and the first winner in 13 years for owner H. E. Marks.

1. Card of Thanks

Dulek

I wish to express my sincere appreciation to Father Myron and Father Moews, my co-workers and the staff from the first floor at St. Francis Hospital and all my friends and relatives who sent gifts and cards while I was a patient at St. Francis Hospital. I will always remember your many kindnesses.

Signed:
Mrs. John Dulek

Newspaper want ads are a big sell! Eight hundred million was spent on classified ads last year . . . more than for all television spot announcements or radio advertising.

GALE FORCE — The offense of the Chicago Bears perked up once rookie halfback Gale Sayers inserted into the line-up as a long distance touchdown threat.

News 'N Notes On NFL Action

GALE SAYERS OF THE CHICAGO BEARS is just two away from tying the record for most touchdowns by a NFL rookie . . . In nine games, Sayers has scored 11 times—6 by running and 5 by pass receiving . . . The rookie record is 13 TDs by Bill Howton with Green Bay in 1952 . . . All of Howton's touchdowns came on passes . . . Sayers currently is tied with Detroit's Doak Walker for fourth on the all-time rookie list. Walker scored 11 for the Lions in 1950. Bill Paschal of the Giants in 1943 and Mike Ditka of the Bears in 1961 scored 12 TDs as rookies . . . More and more, Sayers reminds observers of Lennie Moore, who set the league touchdown record of 20 with the Colts last season . . . Says Moore: "I don't know what I looked like, but Gale reminds me of the late Willie Galimore. I like to just watch and admire Gale but I rather watch and admire while he's playing someone else." . . . In the Bears' 34-13 victory over St. Louis, defensive back Larry Wilson of the Cards played despite broken bones in both hands and a broken toe on his left foot . . . Asked how he felt, Wilson said: "I hurt."

COACH DON SHULA OF BALTIMORE wasn't a bit surprised at the competence quarterback Gary Cuozzo showed in subbing for ailing John Unitas against the Vikings . . . "I had and have great faith in Gary," says his coach. "You can't find a better head on anyone's shoulders than Cuozzo has and beside that he has a fine arm." The inside kick that led to Baltimore's fourth touchdown was planned, not spur of the moment . . . "We noticed in films that the Vikings laid back on the kickoffs so we practiced inside kicks during the week," said Shula. "After the third touchdown it looked like the right time to try it."

FAVORITE MOVIE STAR of Tucker Fredrickson is Cleveland's Jim Brown, who has topped 1,000 yards rushing for the seventh time in nine seasons . . . "First time I saw him I was lost in admiration," says the Giants' rookie from Auburn. "Since then all I've been looking at are movies of him."

RECEIVER PETE RETZLAFF of the Philadelphia Eagles hasn't practiced a pass pattern in more than two weeks because of bruised ribs and a heel injury . . . But he has caught 14 passes for 355 yards and three touchdowns in Philadelphia's last two games . . . Will it start a trend? Says Retzlaff, "It worked for Ingemar Johansson."

Christmas Cash Trade In Greens Gets New Nets

Teal's Evergreens at Bark River, whose pre-holiday activities turn this community into one of Santa's busiest workshops in the Upper Peninsula—this year introduced the Christmas tree to the Age of Plastics.

The conventional way of preparing Upper Peninsula Christmas trees for market since the trade first developed in the last century, has been to bundle the trees with binder twine. This bundling compresses the branches and protects them from breaking in cold temperatures that make them brittle and it makes the trees much more compact, so that hundreds of them can be loaded on a truck for the trip to big city tree markets.

This bundling process costs about 20 cents a tree, says Melvin Teal of the Evergreen organization, including two cents for binder twine.

5,000 Trees Netted

This year Teal's Evergreens bundled 5,000 of the trees they shipped with a plastic netting called Vexar by its manufacturer, the DuPont Co., which demonstrated it to Upper Peninsula Christmas tree producers at a workshop in Escanaba in July arranged by Joseph L. Heirman, Delta County director of Extension services for Michigan State University.

Melvin Teal says that his firm's experience with the netting shows it costs 8 cents a

tree (or bundle of two small trees) compared with the 2 cents for binder twine, but that the quicker bundling in a cone applicator reduces the labor time so that the whole operation costs only 15 cents, and saves 5 cents a tree over the binder method.

Teal said that the evergreen trade notes that the observance of the holiday season gets earlier and earlier. "We have found that it advances about one day every year," said Melvin Teal. "We never used to start shipping balsam boughs (for use in making decorations) before Thanksgiving and this year we started shipping on Oct. 10."

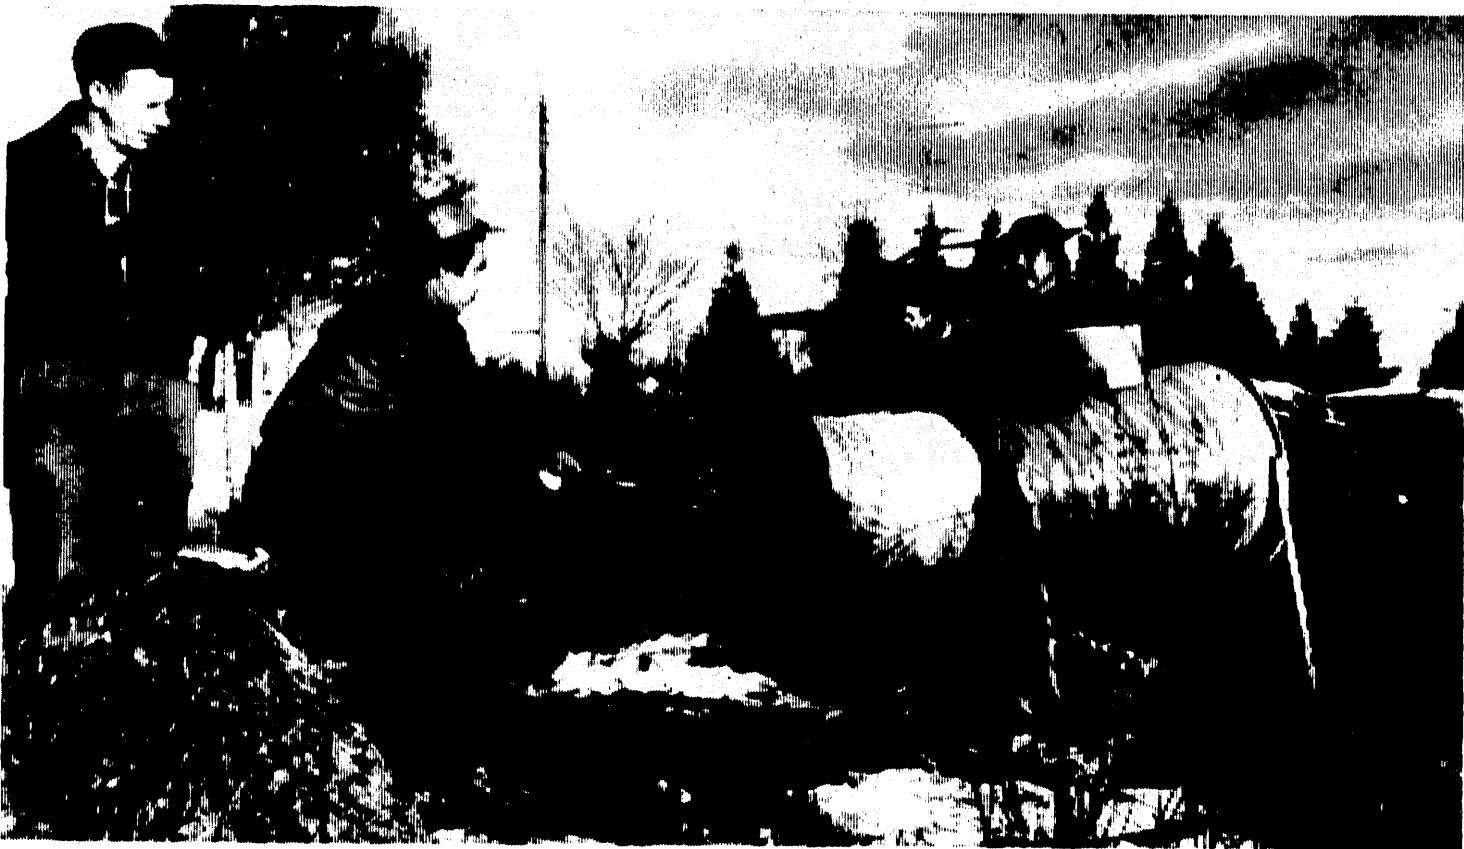

"Christmas Money"

Teal's buy balsam and pine from an Upper Peninsula area with a radius of 150 miles. The brush is gathered in 50-pound bundles by the cutters and wrapped with twine and sold for 1.5 cents a pound. It is used for holiday decorations in stores, for garlands for street decorations, for cemetery grave blankets and other usages.

The trade is a big one which makes a large contribution to "Christmas money" for the Upper Peninsula, both in the gathering of the greens and in the making of the blankets and other decorations.

Balsam fir boughs compose about 60 per cent of Teal's supply and pine about 40 per cent. Cedar is supplied by the firm to wholesale greenhouses all year for the making of floral pieces.

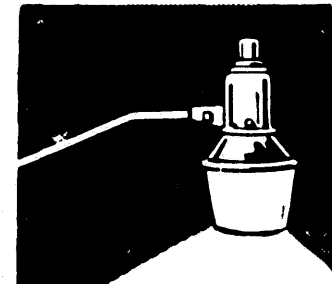

About 80 per cent of the balsam produced comes from the tops of trees cut for pulpwood. Some of the pine in this year's supply came from the U. S. Forest Service, which cut an area on Whitefish Hill near Rapid River to create a range for sharptail grouse.

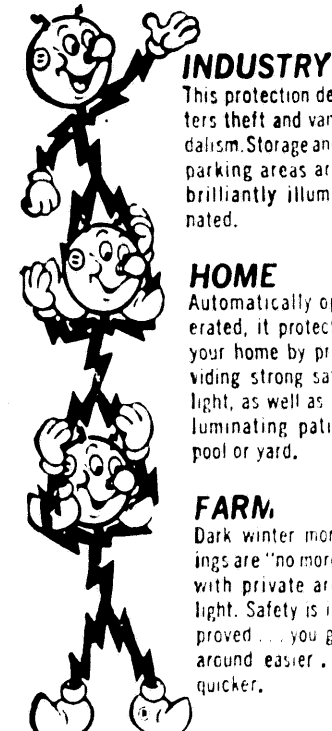

THE BUNDLING of Christmas trees in a plastic netting called Vexar by the Du Pont Co., its producer, was done by Teal Evergreens of Bark River this year for the first time. From left: Melvin Teal watches Perry Thunder pull

a pair of balsams through the net applicator funnel while Henry Thunder gives them a push from the top end. (Daily Press Photos by Bernard Schultz)

Rainbow Over 9 Pounds Taken From Ontonagon

A rainbow trout and a small-mouth bass brought Northern Michigan Master Angler Awards this week to the two fishermen who caught them.

The successful trout fisherman Duane Wenzel, Crystal Falls, who landed a nine-pound, 12-ounce rainbow while fishing in the Ontonagon River this fall.

Francis Ruessing, 251 Healy Ave., Negaunee, landed the big bass — four pounds, 14 ounces — from the Dead River Basin. On the same day Ruessing caught two other trophy bass, one weighing four pounds, four ounces and the other three pounds, 15 ounces.

PERRY THUNDER, of the Teal Evergreens crew at Bark River, shows the result of preparing Christmas trees for shipment in a plastic netting, left, and in the older, conventional method of bundling with twine, right. The trees are pines. The bundling is done to compact the trees for trucking to big city markets and to prevent the breaking of boughs.

Hospital

Mrs. George Rozich, 1426 N. 18th St., is a surgical patient at St. Vincent's Hospital, Green Bay, where she was operated on Friday. She is in Room 8-C.

Mrs. Lindsey, 86, Of Crystal Falls, Hermansville Dies

HERMANSVILLE—Mrs. Omer G. (Agnes) Lindsey, 86, well known resident of Crystal Falls, died Friday at Anderson Memorial Hospital, Norway. She had made her home recently with her daughter and son-in-law, Mr. and Mrs. William J. Eisenzoph of Hermansville.

Mrs. Lindsey was born Nov. 29, 1878, in Ackley, Iowa. She attended Sacred Heart Academy and Cedar Falls Academy at Cedar Falls, Iowa. She taught school for two years before attending St. Joseph Hospital School of Nursing, Chicago, graduating in 1899 as a registered nurse.

On Oct. 28, 1900, she was married to Omer Glenn Lindsey at Crystal Falls. Her husband died Feb. 15, 1935.

She was a charter member of the Crystal Falls Women's Club and W. C. T. U., holding offices in both organizations, and also of the Guardian Angels Altar Society and Louis Bowman Post Auxiliary.

Mrs. Lindsey is survived by two daughters, Mrs. W. J. Eisenzoph of Hermansville and Mrs. E. N. Upland of Palatine, Ill.; three grandchildren, three brothers and two sisters.

The body was taken to the Plowse Funeral Home, Crystal Falls.

John Pare, 40, Dies Friday

John A. Pare, 1600 N. 18th St., suffered a heart attack and died at 6 a.m. Friday while visiting at a hunting camp on Federal Highway 13. He was born in Schaffer on Jan. 10, 1925 and he was 40 years of age. He was a member of St. Thomas Church and was a disabled veteran of World War II serving in the Army.

He is survived by his widow, the former Rose Young; three sons, Donald, Mark and John Jr. at home; three daughters, Janine and Debra at home and Mrs. Ronald (Diane) Lindstrom of Escanaba; three sisters, Mrs. Ronald Olson, Detroit; Mrs. Irvin Vandiville, Rte. 1, Escanaba and Mrs. Robert Preston of Powers; four brothers, Lyle, Soo Hill, Raymond, Brampton; Harry, Calif.; Adeline, Milwaukee. His father, Adeline Sr., also survives.

The body has been removed to the Anderson Funeral Home and will lie in state from 4 to 9:30 p.m. Sunday. Liturgical prayers will be recited at 8 p.m. Sunday. Funeral services will be conducted at 9 a.m. Monday at St. Thomas Church with the Rev. Fr. Arnold Thompson officiating. Military rites will be conducted by the veteran's organizations and burial will be in the family plot in Holy Cross Cemetery.

Cows Labeled In Deer Country

ALPENA (UPI) — Farmer Darwin Marquardt painted "COW" in big letters on each animal in his dairy herd. He said some deer hunters have never seen a deer.

"I hope they all know how to read," Marquardt said.

Obituary

MISS JOSEPHINE RYAN

Blackout Study Points Remedy

In connection with the Northeast power failure of last Tuesday, R. F. Hoyer, president of Upper Peninsula Power Co., has released the following statement made by R. T. Person, president of Edison Electric Institute, of which the local power firm is a member.

"With the immediate cause of the Nov. 9 power failure now located on the Ontario Hydro System, of Canada, studies are continuing to determine what must be done to avoid the widespread effects of any such interruption in the future.

"We have in the United States the world's most advanced systems for power supply, and we are committed to maintaining this stature. We expect that the committees of the Edison Electric Institute will come up with suggestions on how to avoid anything like the power failure just experienced.

"Some 80 per cent of the electric customers in the U. S. are served by investor owned electric utility companies and the remainder by government owned or government financed agencies. Both investor-owned and government systems work together in the networks to supply the American people with their electric service. The situation has nothing to do with how these systems are owned or financed."

The record of economical and reliable service thus far achieved has been based on the careful, evolutionary development of the networks of transmission lines and facilities in this nation. There is every reason to believe that this evolutionary development is the best procedure. There is no reason to believe that a nationwide grid is the answer."

Christmas Cash Trade In Greens Gets New Nets

Teal's Evergreens at Bark River, whose pre-holiday activities turn this community into one of Santa's busiest workshops in the Upper Peninsula—this year introduced the Christmas tree to the Age of Plastics.

The conventional way of preparing Upper Peninsula Christmas trees for market since the trade first developed in the last century, has been to bundle the trees with binder twine. This bundling compresses the branches and protects them from breaking in cold temperatures that make them brittle and it makes the trees much more compact, so that hundreds of them can be loaded on a truck for the trip to big city tree markets.

This bundling process costs about 20 cents a tree, says Melvin Teal of the Evergreen organization, including two cents for binder twine.

5,000 Trees Netted
This year Teal's Evergreens bundled 5,000 of the trees they shipped with a plastic netting called Vexar by its manufacturer, the DuPont Co., which demonstrated it to Upper Peninsula Christmas tree producers at a workshop in Escanaba in July arranged by Joseph L. Heirman, Delta County director of Extension services for Michigan State University.

Melvin Teal says that his firm's experience with the netting shows it costs 8 cents a

tree (or bundle of two small trees) compared with the 2 cents for binder twine, but that the quicker bundling in a cone applicator reduces the labor time so that the whole operation costs only 15 cents, and saves 5 cents a tree over the binder method.

Teal said that the evergreen trade notes that the observance of the holiday season gets earlier and earlier. "We have found that it advances about one day every year," said Melvin Teal. "We never used to start shipping balsam boughs (for use in making decorations) before Thanksgiving and this year we started shipping on Oct. 10."

"Christmas Money"
Teal's buy balsam and pine from an Upper Peninsula area with a radius of 150 miles. The brush is gathered in 50-pound bundles by the cutters and wrapped with twine and sold for 15 cents a pound. It is used for holiday decorations in stores, for garlands for street decorations, for cemetery grave blankets and other usages.

The trade is a big one which makes a large contribution to "Christmas money" for the Upper Peninsula, both in the gathering of the greens and in the making of the blankets and other decorations.

Balsam fir boughs compose about 60 per cent of Teal's supply and pine about 40 per cent. Cedar is supplied by the firm to wholesale greenhouses all year for the making of floral pieces.

About 80 per cent of the balsam produced comes from the tops of trees cut for pulpwood. Some of the pine in this year's supply came from the U. S. Forest Service, which cut an area on Whitefish Hill near Rapid River to create a range for sharptail grouse.

Rainbow Over 9 Pounds Taken From Ontonagon

A rainbow trout and a small-mouth bass brought Northern Michigan Master Angler Awards this week to the two fishermen who caught them.

The successful trout fisherman Duane Wenzel, Crystal Falls, who landed a nine-pound, 12-ounce rainbow while fishing in the Ontonagon River this fall.

Francis Ruessing, 251 Healy Ave., Negaunee, landed the big bass—four pounds, 14 ounces—from the Dead River Basin. On the same day Ruessing caught two other trophy bass, one weighing four pounds, four ounces and the other three pounds, 15 ounces.

THE BUNDLING of Christmas trees in a plastic netting called Vexar by the Du Pont Co., its producer, was done by Teal Evergreens of Bark River this year for the first time. From left: Melvin Teal watches Perry Thunder pull

a pair of balsams through the net applicator funnel while Henry Thunder gives them a push from the top end. (Daily Press Photos by Bernard Schultz)
